

Mario Marcolongo

AI Evaluation & Research Support

Italy · Italian/EU citizen · Open to relocation

me@mariomarcolongo.com · mariomarcolongo.com · [LinkedIn](#) · [GitHub](#)

Summary

Independent AI evaluator with a dated Gray Swan competition record, paid scientific fact-checking experience and accepted open-source contributions. I investigate model behavior and source claims, document evidence and state the limits of what a result shows. My technical implementations are AI-assisted; I am strengthening independent programming and quantitative skills.

Independent evaluation work

Gray Swan

Independent evaluation · July 2026 snapshot · [Contribution and evidence](#)

- Dated Proving Ground record: rank #74, top 6%, on 29 July 2026.
- Public evidence page distinguishes the competition record from the separate Arena metrics and explains the limits of platform-level results.

Professional experience

Entropy for Life

Paid contractor · Jun 2023–Present · [Contribution and evidence](#)

- Contributed research, fact-checking and production support to 80 documented published pieces: 55 videos, 4 articles and 21 short-form pieces.
- Managed publishing and technical website operations alongside scientific content work.

Open-source contributions

AI Safety Formalization Atlas

Open-source contributor · Sep 2026 · [Contribution and evidence](#)

- Contributed three merged pull requests to AI Safety Formalization Atlas, covering repository tooling portability and instruction organization.
- Worked through reviewable changes with public maintainer acceptance; exact contributions and validation limits are linked in the portfolio.

Education

Metropolia University of Applied Sciences — Open UAS Information Technology path studies

Aug 2026–Present

English-taught, online, non-degree pathway toward eligibility to apply for the online BEng. Python Programming: 3 ECTS, Pass, assessed 15 Sep 2026.

University of Campania Luigi Vanvitelli — Medicine studies, degree not completed

2020–2023

Skills

Demonstrated work: Evidence documentation, model-behavior testing on the demonstrated platform surfaces, scientific source investigation and technical documentation.

Current study: Python, SQL, systems and quantitative foundations. Independent professional programming proficiency is not established by the current evidence.
