

Mario Marcolongo

Technical Operations | Troubleshooting & Data Quality

Italy · Italian/EU citizen · Open to relocation

me@mariomarcolongo.com · mariomarcolongo.com · [LinkedIn](#) · [GitHub](#)

Summary

Technical-operations candidate with accepted open-source contributions and experience defining, testing and maintaining AI-assisted tools. My strongest work involves tracing failures, checking evidence and documenting practical fixes. I am developing independent Python, SQL and systems competence through structured study.

Technical contributions

AI Safety Formalization Atlas

Open-source contributor · Sep 2026 · [Contribution and evidence](#)

- Contributed three merged pull requests to AI Safety Formalization Atlas, covering repository tooling portability and instruction organization.
- Worked through reviewable changes with public maintainer acceptance; exact contributions and validation limits are linked in the portfolio.

Notandia

Independent project · AI-assisted implementation · [Contribution and evidence](#)

- Developed and maintained an AI-assisted browser tool for research-result workflows; case study distinguishes released store versions from capabilities currently in source.
- Defined requirements, inspected behavior and tested AI-assisted changes; release records and source development remain separately documented.

Professional experience

Entropy for Life

Paid contractor · Jun 2023–Present · [Contribution and evidence](#)

- Contributed research, fact-checking and production support to 80 documented published pieces: 55 videos, 4 articles and 21 short-form pieces.
- Managed publishing and technical website operations alongside scientific content work.

Education

Metropolia University of Applied Sciences — Open UAS Information Technology path studies

Aug 2026–Present

English-taught, online, non-degree pathway toward eligibility to apply for the online BEng. Python Programming: 3 ECTS, Pass, assessed 15 Sep 2026.

Skills

Demonstrated work: Requirements definition, functional testing, release troubleshooting and technical documentation.

Current study: Python, SQL, systems and quantitative foundations. Independent professional programming proficiency is not established by the current evidence.

Languages

Italian native · English: EF SET C1 overall, 68/100 (Mar 2024) · [Certificate](#)

Project counts reviewed 12 Sep 2026; education updated from transcript 19 Sep 2026; Gray Swan snapshot 29 Jul 2026. Technical implementation is AI-assisted. Work authorization outside the EU must be checked for the engagement.
