

Mario Marcolongo

Technical Operations | Troubleshooting & Data Quality

Italy · EU citizen · Seeking relocation abroad

me@mariomarcolongo.com · mariomarcolongo.com · [LinkedIn](#) · [GitHub](#)

Summary

Technical-operations candidate with accepted open-source contributions and experience defining, testing and maintaining AI-assisted tools. My strongest work involves tracing failures, checking evidence and documenting practical fixes. I am developing independent Python, SQL and systems competence through structured study.

Technical contributions

AI Safety Formalization Atlas

Open-source contributor · Sep 2026 · [View work](#)

- Contributed three merged pull requests covering macOS validation portability and repository instruction organization.
- Diagnosed a Bash 3.2 compatibility failure and contributed a fix accepted by the upstream maintainer.

Notandia

Independent project · AI-assisted implementation · [View work](#)

- Developed and maintained an AI-assisted browser tool for research-result workflows.
- Defined requirements, tested behavior and diagnosed release issues; documented store releases separately from source development.

Professional experience

Entropy for Life

Paid contractor · Jun 2023–Present · [View work](#)

- Contributed research, fact-checking and production support to 80 documented published pieces: 55 videos, 4 articles and 21 short-form pieces.
- Managed publishing and technical website operations alongside scientific content work.

Education

Metropolia University of Applied Sciences — Open UAS Information Technology path studies

Aug 2026–Present

English-taught, online Open UAS path studies (non-degree). Python Programming: 3 ECTS, Pass, assessed 15 Sep 2026.

Skills

Demonstrated work: Requirements definition, functional testing, release troubleshooting and technical documentation.

Programming foundations: Python fundamentals — Python Programming, 3 ECTS, Pass (Sep 2026). Continuing study in Python, SQL, systems and quantitative foundations.

Languages

Italian native · English: EF SET C1 overall, 68/100 (Mar 2024) · [Certificate](#)

Technical project implementation is AI-assisted; contributions and source records are linked above.
